The Bulletin.

The late Hon, Wm. P. Fessenden ide a remark which was interpreted or an insult to Mr. Seward. When informed of it, and seeing such a meaning could be given to his words, he instantly went to Mr. Seward and said: "Mr. Seward, I have insulted you; I am sorry for it. I did not mean it." This spology so grompt, frank and perfect, so delighted Mr. Seward that grasping him by the hand he exclaimed, "God bless you, Fessenden I wish you would insult me again."

A letter, dated on board the steamer Ida Rom. May 13, gives the following particu-lars of the fight which recently took place near Muscle-shell Mount, between a party f woodchoppers and a band of Yankton Indians:

"A war party of Yanktons came to the river, a few miles above here, a few days ago, and attacked three men belonging to a party of woodchoppers. The men ran to the bend in the river and concealed themselves in the thick bushes, but their biding place was discovered, when a des-perate fight took place, resulting in the death of one white msn and eleven In-dians. The reds numbered forty; and left six of their dead upon the field of battle, not having horses enough to carry them off, The fight commenced at 2 p.m. and continued until dark, the men being intrenched in heavy undergrowth and be-bind a log, from which position the In-dians found it impossible to dislodge The two survivors reached their camp in safety the naxt morning.

HOOFLAND'S CERMAN TONIC

Hoofiand's Podophyllian Pill

Hoofland's Greek Oil

Hooffland's German Bitters.

A Bitters Without Alcohol or Edicita Is different from an others. Is composed of the pure juices or vival principle of Roots, Herbs and Bark: (or as medically termed, extracts,) the Bark: (or as meeting the state of the ingredients not being used. Therefore, in one bottle of this Bitters there is contained as much medicinal virtue as will be found in several gellons of ordinary mixtures. The Roots, etc., used in this Bitters are grown in Germany, their vital principles extracted in that country by a scientific Chemist and forwarded to the manufactory in this city, where they are compounded and bottled. Containing no spirituous ingredients, this Bitters is free from the objections urged against all others; no desire for stimulants can be induced from their use, can make no drunkards, and cannot, under ircumstances, have any but a beneficial effect.

Hoofland's German Tonic. Was compounded for those not inclined to ex-reme bitters, and is intended for use in cases when some alcoholic stimulant is equired in connection with the tonic properties of the Bitters Each bottle of the Tonic contains one bottle o.

the Bitters, combined with pure Sata Cruz Rum, and flavored in such a manner that the extreme bitterness of the Bitters is overcome, forming a preparation highly agreeable and pleasant to the palate, and containing the medicinal virtue of the Bitters. The price of the Tonic is \$2 50 per bottle, which many persons think too high They must take into consideration that the stimulant used is guaranteed to be of a pure quality. A poor article could be furnished at a che-pe price, but is it not better to pay a little more and have a good article? A medicinal preparation should contain none but the best ingredients and they who expect to obtain a cheap compound will most certainly be cheated.

They are the Greatest Known Reme dies.

The most Powerful, yet Innocent Vegetable Cuthartic Known.

It is not necessary to take a handini of these pills to produce the desired effect; two of them see quickly and powerfully, cleansing the liver, stom ach and bowels of all impurities. The principal ingredient is Podophyllin, or the alchoholic extract of Mandrake, which is by many times more powerful, acting and searching than the Mandrake itself. Its peculiar action is upon the Liver, cleaning it speedly from all obstructions, with all the power of Mercury, yet free from the injurious results attached to the use of that mineral.

CONSUMPTION. Its Cure and Its Preventive BY J. H. SCHENCK, M.D.

Many a human being has passed away for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they camily adopted DR. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fullen.

Dr. Schenck has in his own case proved that
wherever sufficient vitality remains, that vitality, by his medicines and his directions for their
use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no
representation that is not a thousand times sunstantiated by living and visible works. The
theory of the cure by Dr. Schenck's medicines
is as simple as it is unfailing. Its philosophy requires no argument. It is self-assuring, self-convincing. is as simple as it is threating. The parameter of quires no argument. It is self-consuring, self-convincing.

The Sea-weed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the atomach. They respond to the morbide action of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms of

CONSUMPTION.

The Mandrake Pilis are composed of one of Na-ture's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel, but, unlike calomel, they "LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitta-ted and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpid-ity. The stomach acts responsively, and the patient begins to feel that he is getting, at last, A SUPPLY OF GOOD BLOOD. A SUPPLY OF GOOD BLOOD.

The Sea-weed Tonic, in conjunction with the pills, permeates and assimilates with the food. Chylification is now progressing without its previous tortures. Digestion becomes painless, ands the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier every et given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to basten and complete the cure. It enters at once upon its work. Nature can not be cheated. It collects and ripens the impaired and diseased portions of the lings, in the form of gatherings, it prepares them for expectoration, and lo; in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room tout they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure can not be effected. Fresh air and riding out, especially in this section of the country, in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased; and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then, like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time.

"As soon as that began to subside, my cough, fever, pains, and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in fisch ever since.

"I was weaked shortly after my recovery." As soon as that began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in fisch ever since.

"It was weaked shortly after my recovery." As soon a GIVEN UP AS LOST.

The directions for taking the medicines are adapted to the intelligence even of a child, Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pilis are to be taken in increased doses; the three medicines need no other accompaniments than the ample instructions that accompany them; First create appetite. Of returning health, hunger is the most welcome symptom. When it comes, as it will come, let the desparing at once be of good cheer. Good blood atonce follows, the cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pilis are a standard preparation; while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylacteric against consumption in any of its forms.

Price of the Pulmonic Syrup and Sca-weed Tonic, \$1.50 a bottle, or \$7.50 a half dosen. Mandrake Pilis, 25 cents a box. For asic by all druguists and dealers.
